## **The British American Business Council Palm Beach and the Treasure Coast**

BABC Palm Beach Trustee Member Moneycorp is pleased to announce the launch of its new, completely automated **online account opening facility** for Private Clients. Your clients can now open their Moneycorp Trading Facility entirely online – a fast and straightforward process!

Unique in the industry, the major benefits to your clients of this new facility are:

- **Paper free** – ability to open their Moneycorp account online, no need for any paper documentation and no signature required.
- **Speed** - your clients are just a few clicks away from opening their Trading Facility and don't have to rely on the post or fax machine.

Furthermore, the online form is tracked using your unique Moneycorp ID, so you will automatically be registered as the referring partner, ensuring that you earn commission on all your clients' foreign exchange transactions.

Below is your unique referring partner link, which you can email to all of your existing and new clients who have foreign exchange requirements.

<https://members.tttmoneycorp.co.uk/OnlineExperience/OnlineTradingFacility/Application.aspx?rp=10073370>

When clicking on the link above, your clients will be taken to our one-page online account opening form. Please note that your clients simply have to complete this form and confirm that they have read and agreed to our terms and conditions by ticking the appropriate box.

Along with the online Trading Facility solution, we can now also provide you with an **automated deal notification email**, which we can send to you every time one of your clients books a deal with us (Regular Payment Plan transactions are not included). This will offer you complete visibility on all your clients' transactions, therefore resulting in a smoother, easier transaction process for you and your clients.

If you have any questions on the information above, please contact your account manager or Marc Morley-Freer, Manager Key Partnerships
